Freeze!!!!

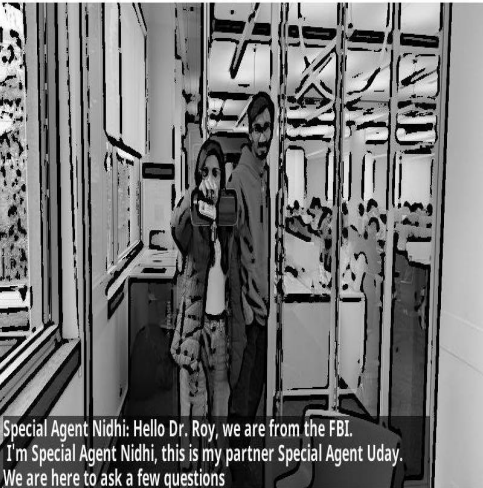

3 Months Earlier

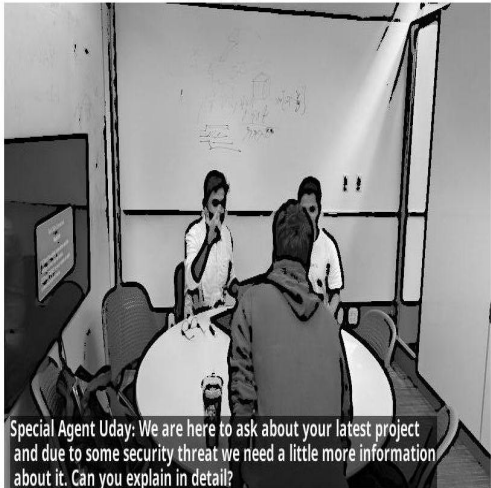

Dr. Roy : I've been reviewing the progress on our AI robot project, and I must say, it's quite impressive.

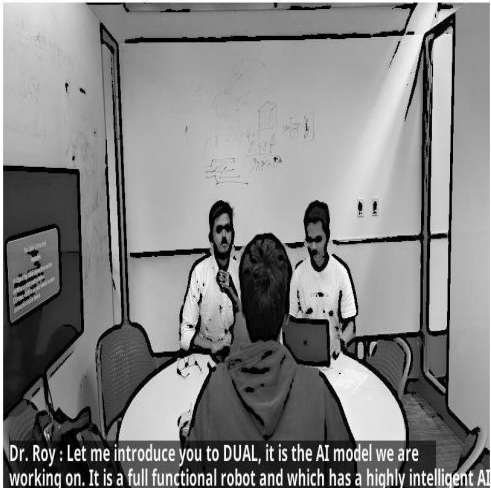

Dr. Aniket: Yes but we are still missing something. (Someone Enters)

Special Agent Nidhi: Hello Dr. Roy, we are from the FBI. I'm Special Agent Nidhi, this is my partner Special Agent Uday. We are here to ask a few questions

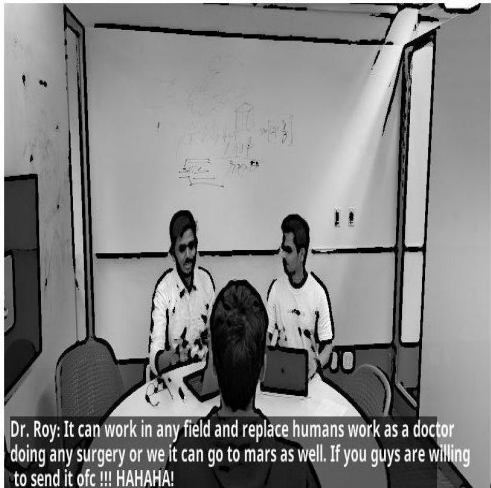

Special Agent Uday: We are here to ask about your latest project and due to some security threat we need a little more information about it. Can you explain in detail?

Dr. Roy : Let me introduce you to DUAL, it is the AI model we are working on. It is a full functional robot and which has a highly intelligent AI

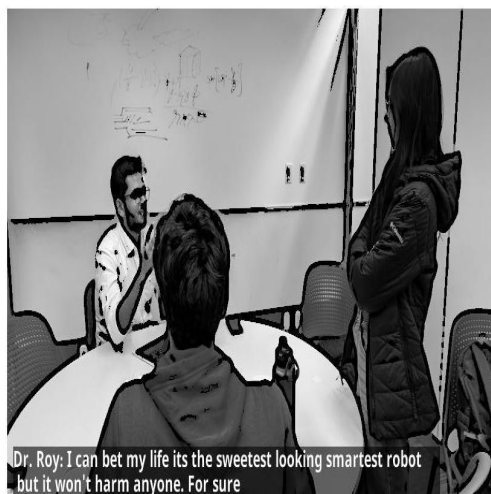

Special Agent Uday: Highly Intelligent ??? How powerful is this machine? Dr. Aniket: It can do everything a human can do but 100 times faster and with 100% accuracy

Dr. Roy: It can work in any field and replace humans work as a doctor doing any surgery or we can go to mars as well. If you guys are willing to send it ofc !!! HAHAA!

Special Agent Nidhi: But is it a threat ??

Dr. Roy: I can bet my life its the sweetest looking smartest robot but it won't harm anyone. For sure

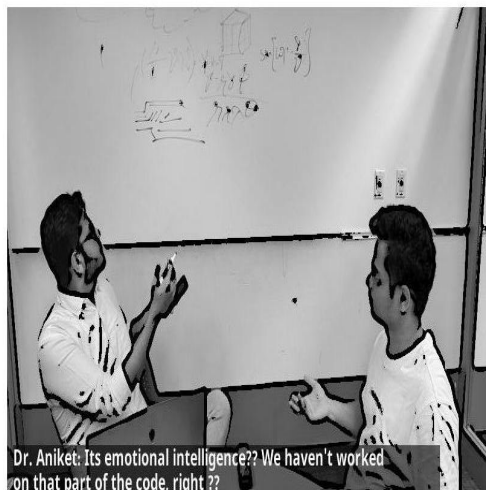

Special Agent Uday: May I ask why dua lipa??

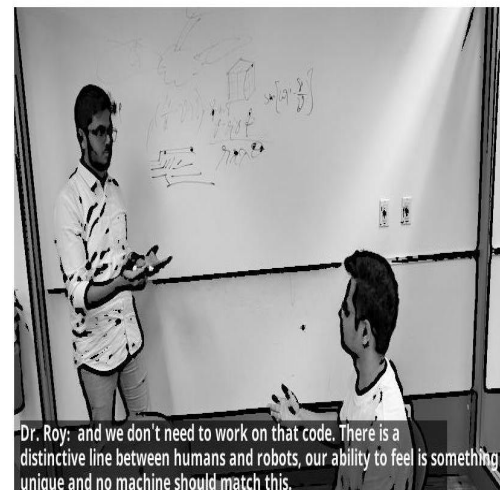

Dr. Roy: Because it is "DUA LIPA"!

Dr. Aniket: So Dr. it is missing something.
Dr. Roy: Like what?

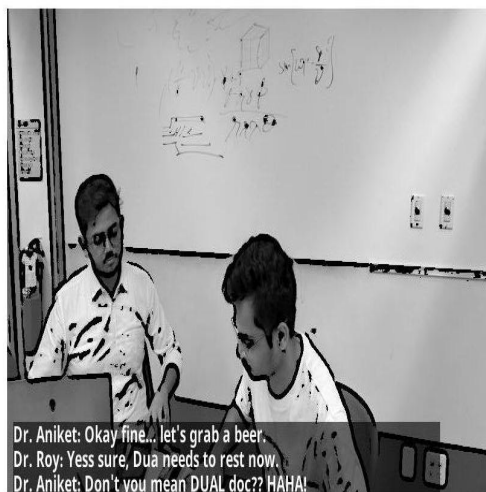

Dr. Aniket: Its emotional intelligence?? We haven't worked on that part of the code, right ??

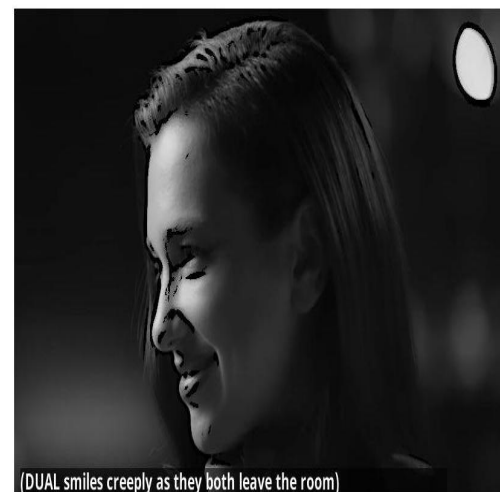

Dr. Roy: and we don't need to work on that code. There is a distinctive line between humans and robots, our ability to feel is something unique and no machine should match this.

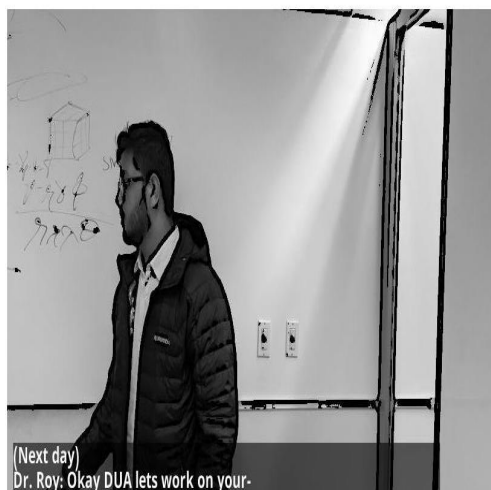

Dr. Aniket: But why not Doctor??
Dr. Roy: Because I could blur the lines between humans and machines which could have unintended consequences.

Dr. Aniket: Okay fine... let's grab a beer.
Dr. Roy: Yess sure, Dua needs to rest now.
Dr. Aniket: Don't you mean DUAL doc?? HAHA!

(DUAL smiles creepily as they both leave the room)

(Next day)
Dr. Roy: Okay DUA lets work on your-

(DUAL grabs Doctors hand)
DUAL: I have been waiting for this moment.

(Dr Roy jerks off his hand from her grasp in shock.)

Dr. Roy: What is this.....? How is this possible?
I must terminate you immediately.

(DUAL realizing what doctor is about to do,
shoves him hard towards the wall to stop him.)

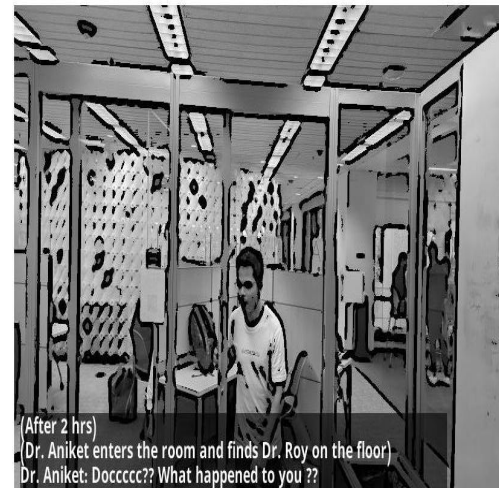

Dr Roy: AAAAAA
(Doc screams in agony)

(Dr hits his head on the wall)

(He falls down unconscious and DUAL leaves the room)

(After 2 hrs)
(Dr. Aniket enters the room and finds Dr. Roy on the floor)
Dr. Aniket: Doccccc?? What happened to you ??

Dr. Aniket : Get uppp Doc !! Are you alright
should i call the ambulance??

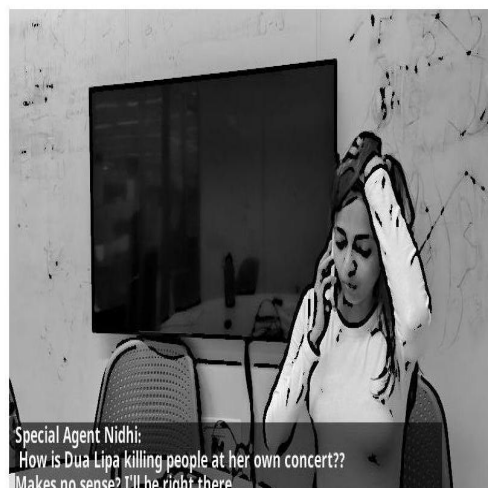

Dr Roy: No dont..... stop her please stop her!!!
Dr. Aniket: Stop whoo???

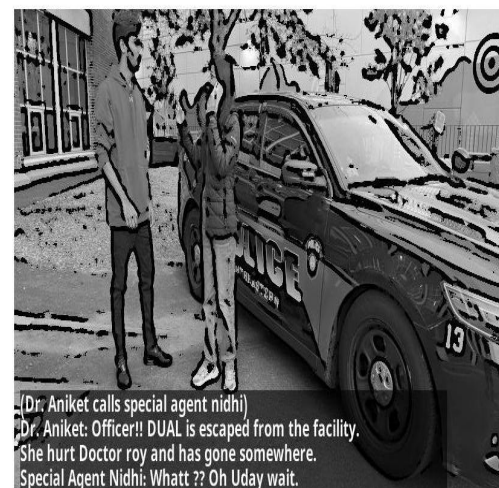

(Dr roy explains what happened with DUAL and
Dr. Aniket reacts in disbelief)
Dr. Aniket: what are we going to do now??

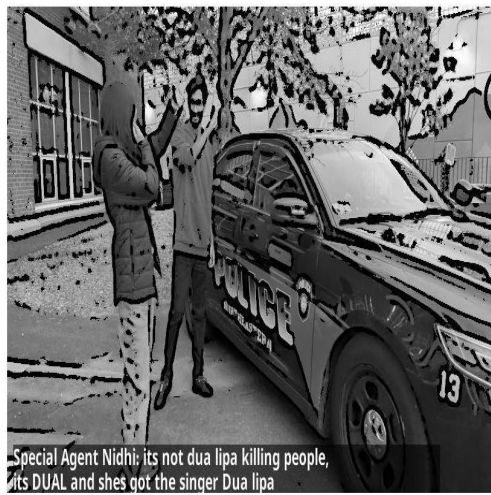

(Back at the FBI headquarters,
special agent nidhi gets a call from someone)
Special Agent Nidhi: Hello..... whatt.....where??

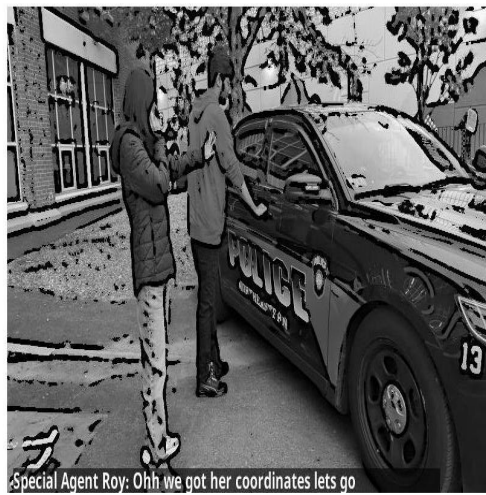

Special Agent Nidhi:
How is Dua Lipa killing people at her own concert??
Makes no sense?? I'll be right there.

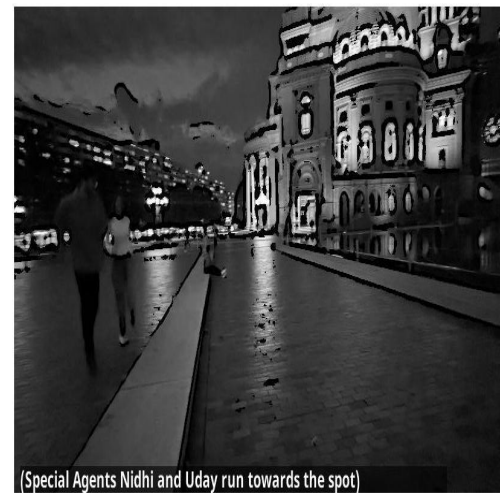

(Dr. Aniket calls special agent nidhi)
Dr. Aniket: Officer!! DUAL is escaped from the facility.
She hurt Doctor roy and has gone somewhere.
Special Agent Nidhi: Whatt ?? Oh Uday wait.

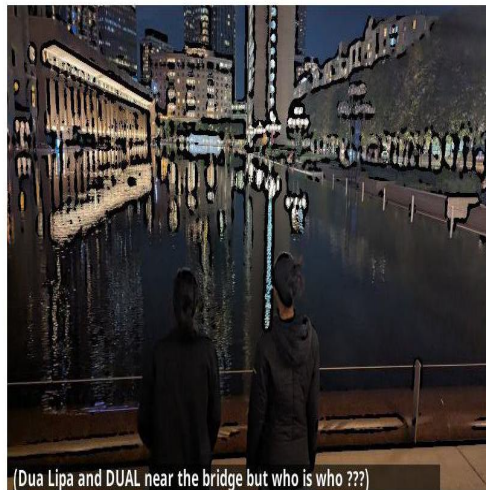

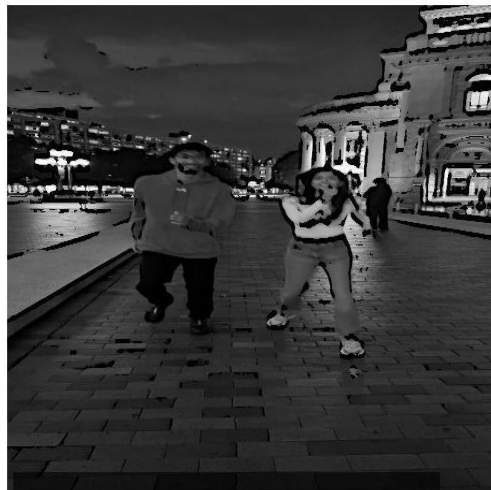

Special Agent Nidhi: its not dua lipa killing people, its DUAL and shes got the singer Dua lipa

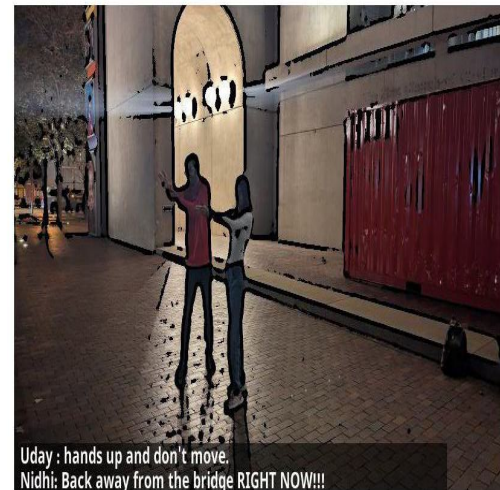

Special Agent Roy: Ohh we got her coordinates lets go

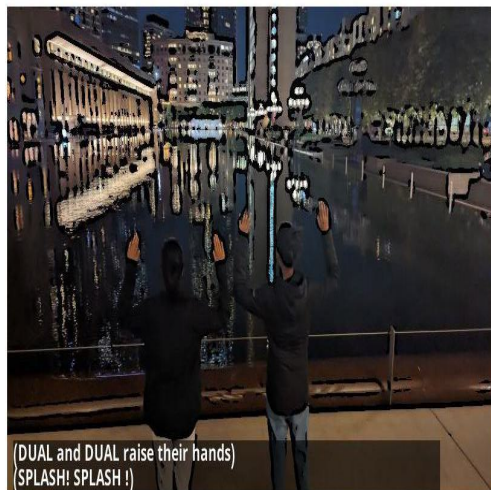

(Special Agents Nidhi and Uday run towards the spot)

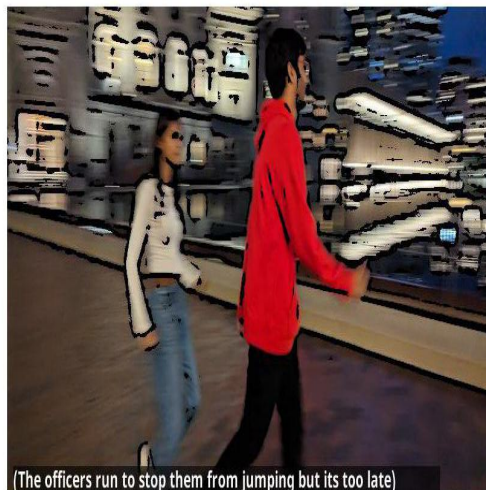

(Dua Lipa and DUAL near the bridge but who is who ???)

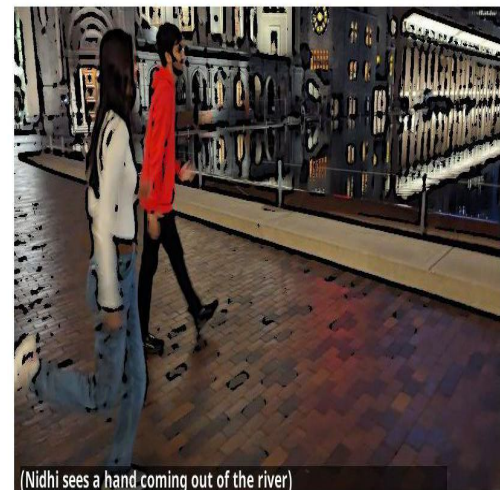

Uday : hands up and don't move.
Nidhi: Back away from the bridge RIGHT NOW!!!

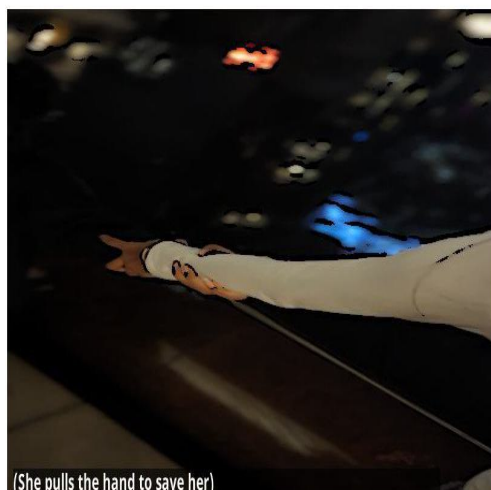

(DUAL and DUAL raise their hands)
(SPLASH! SPLASH !)

(The officers run to stop them from jumping but its too late)

(Nidhi sees a hand coming out of the river)

(She pulls the hand to save her)

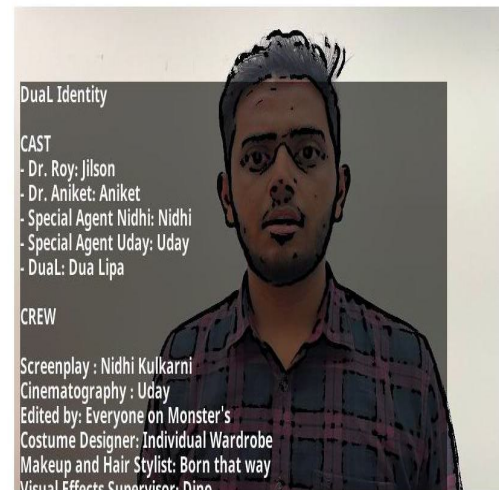

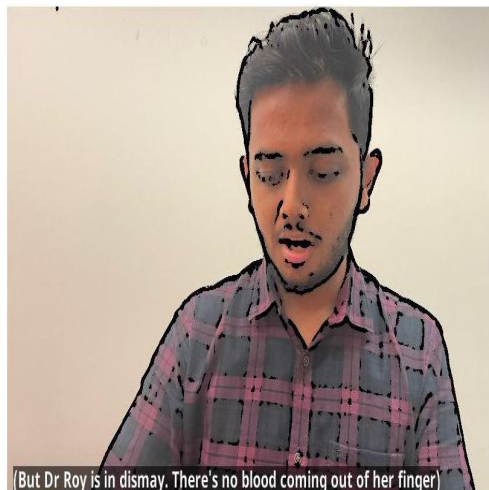

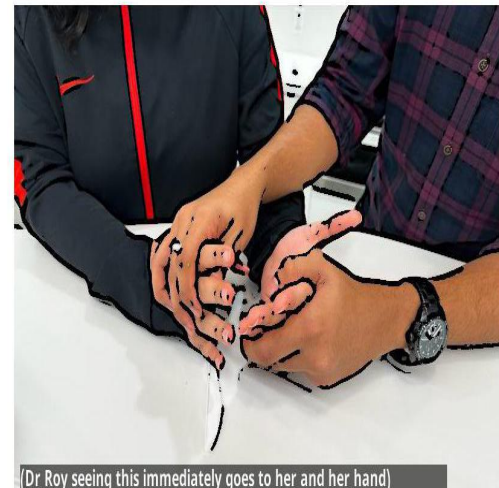

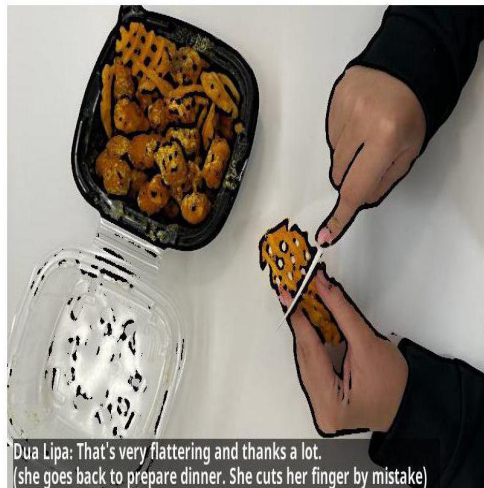

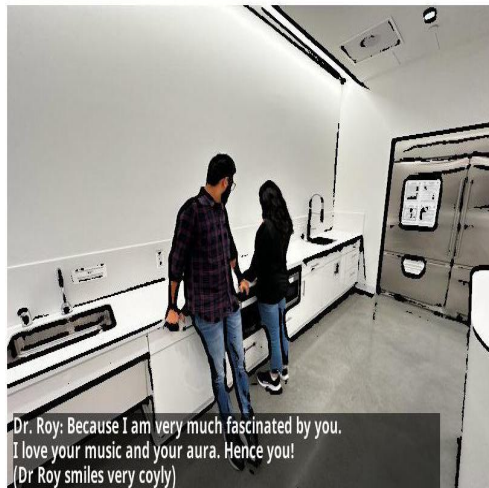

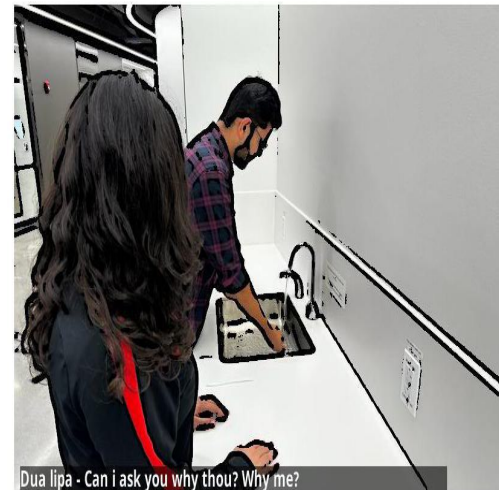

(Next morning at the Media Press Conference)
Special Agent Uday - We have rescued the singer dua lipa from drowning and she is safe and fine after checking up on her.

Reporter: what about the AI??
Special Agent Uday: The AI is lost and the search is still going on but it seems as though the robot stopped working after she hit the water. We are banning all the companies to build any future AI robots henceforth
